

CUMIS Short-Term Bond & Mortgage Fund (PH&N)

INVESTOR PROFILE

Suited to investors with a moderate tolerance for risk and a short-term investment time horizon.

INVESTMENT OBJECTIVE

The fundamental investment objectives of the Fund are to provide relatively high yields and stability of capital by investing primarily in a well-diversified portfolio of short-term fixed income securities issued by Canadian governments and corporations, and first mortgages on property located in Canada.

INVESTMENT STRATEGY

- PH&N invests in high-quality Canadian corporate bonds, government bonds and up to 40% of the Fund's net assets in conventional first mortgages and mortgages guaranteed under the National Housing Act (Canada). The average term to maturity of the portfolio is generally three years.
- If the Fund has more than 10% of its portfolio invested in mortgages, National Policy Statement No. 29 of the Canadian Securities Administrators will apply.
- The value of any one investment at month-end must not exceed 15% of the Fund's net assets at market value. This does not apply to government or government-guaranteed debt instruments.
