

CUMIS U.S. Equity Index Fund (BLK)

BLACKROCK

INVESTOR PROFILE

Suited to investors seeking diversification outside Canada with exposure to the broad U.S. stock market, with a longer investment horizon to offset higher volatility of stocks.

INVESTMENT OBJECTIVE

The objective of this fund is to:

- track the returns of the S&P 500 Index
- outperform the average U.S. equity fund over the longer term after fees

INVESTMENT STRATEGY

- BlackRock uses an “index” approach to manage this fund. The advantage of an index approach is that costs are generally lower, it provides broad diversification by investing in 500 of the largest public companies in the United States, and over time an index fund is expected to outperform the average active fund, net of fees and costs.
- To closely track the S&P 500 Index, BlackRock invests in all 500 securities in the index very close to their actual index weights.
