

CUMIS Balanced Fund (PH&N)

PHILLIPS, HAGER & NORTH
Investment Management®

INVESTOR PROFILE

Suited to investors seeking relatively steady current income and moderate growth over time of at least 5 years.

INVESTMENT OBJECTIVE

The fundamental investment objectives of the Fund are to provide long-term capital growth and interest income by investing primarily in a well-diversified, balanced portfolio of Canadian common stocks, bonds and money market securities.

INVESTMENT STRATEGY

The PH&N balanced approach follows a three-part investment philosophy:

- Investments in high-quality common stocks represent the best vehicle for creating wealth over the long term.
- Wealth preservation and income objectives are best met by balancing common stock and bond investments.
- The cyclical nature of markets requires the timely adjustment of the mix of common stock and bond investments.

PH&N's goal is to take advantage of market opportunities by anticipating the best performing asset class at each stage of the business cycle. Through increasing exposure to these classes the overall return of the portfolio can be enhanced.
